Profile

A motivated FullStack Developer with 1 year of experience in building and maintaining responsive websites. Skilled in HTML, CSS, SASS, JavaScript, and TypeScript. Adept in using Material UI, Node.js, Express.js, and PostgreSQL. Committed to learning and implementing new technologies to enhance development processes and user experiences.

Education

BSc. Computer Science

University of the People (UoP)

Graduated: 2025

Diploma in Software Development

Openlabs

Completed: 2024

Technical Skills

HTML: Experienced	PostgreSQL: Basic
CSS: Experienced	Node.js: Intermediate
SASS: Intermediate	Express.js: Intermediate
JavaScript: Basic	Git: Intermediate
TypeScript: Basic	Python: Basic
Material UI: Intermediate	Professional Experience

Junior FullStack Developer

Openlabs Tech Solutions

June 2023 – Present

- Developed and maintained frontend interfaces using HTML, CSS, and JavaScript.

- Collaborated with design teams to implement responsive web designs.
- Utilized Node.js and Express.js to create robust serverside logic.
- Integrated PostgreSQL databases for storing and managing application data.
- Implemented Material UI components to enhance the user interface and user experience.
- Participated in code reviews and contributed to improving code quality.
- Managed source code using Git and GitHub, ensuring version control and collaboration.

Intern FullStack Developer

OasisInfobyte

May 2024

- Assisted in developing web applications using HTML, CSS, and SASS.
- Worked with senior developers to learn and implement JavaScript and TypeScript functionalities.
- Supported backend development with Node.js and Express.js.
- Conducted testing and debugging to ensure optimal performance and user experience.
- Documented technical specifications and user guides.

Projects

Portfolio Website

Developed a personal portfolio website to showcase projects and skills using HTML, CSS, and JavaScript.

Implemented responsive design principles to ensure compatibility across devices.

Task Management App

Created a fullstack task management application using Node.js, Express.js, and PostgreSQL.

Utilized Material UI for the frontend design and user interactions.
